## KODIAK Timberline Interior

The Timberline offers all the functionality of the Tundra, plus interior upgrades including carpeting, faux leather accent panels, seat storage pockets and cup holders. Timberline seats have additional bolstering for added comfort, and the removable carpet provides extra comfort, warmth and soundproofing. If you're looking for the ruggedness of the KODIAK, but also want additional creature comforts, Timberline is the interior for you.

The Interior Package comes in warm beige or cool gray and includes your choice of seat color and lower interior panel color. The Timberline comes with:

- 2 Timberline crew seats
- 4 Timberline passenger seats
- Slip-resistant flooring
- Removable carpet
- 8 Passenger headset jacks
- 8 Passenger PSU vents and reading lights
- Storage pockets in the sidewall beside each seat
- Cupholders in both the cabin and cockpit

- Decorative arm ledge
- Full cabin ventilation control system
- 2-place oxygen system for crew

Other features include:

- Upgraded cockpit seats with an improved headrest and center pedestal closeouts
- Refined headliner gives more open feel
- Composite panels contribute to overall weight reduction and improve the KODIAK's useful load
- Optional additional passenger seats
- Variety of available options including external baggage compartment, TKS ice protection, air conditioning and additional avionics equipment

Whether you want a rugged workhorse or a comfortable passenger transport for business or personal use, the KODIAK is the right aircraft for your mission.

**One Aircraft.....Many Missions.**
